

GO PLM Grant Application – PO No. _____

Siemens supports the academic community and wants to offer all schools the opportunity to use the latest, state-of-the-art PLM tools in their curriculum. Siemens GO PLM Program awards software grants to highly qualified academic institutions based on applications received. Factors such as school size, academic program content, program exposure community impact and financial needs are taken into consideration. A typical grant involves the in-kind contributions of the PLM software for a set period of time along with support and upgrades during the period covered by the grant. Extensive training materials are also made available. If you are interested in a GO PLM grant, please fill out the following information and submit it to academic.plm@siemens.com. A fax may also be sent to (314) 264-8930.

Name of Academic Institution		Department	
Physical Street Address 1		Physical Street Address 2	
Hall / Building		Room number	
City	State	Zip Code	Country
Phone number		Fax number	

Please provide a description of your department. Include the number of students, current software packages used, analysis or manufacturing tools used, which software modules are requested and how many seats for each product bundle.

How do you plan to implement Siemens PLM Software in your curriculum?

In which courses will the software be used? Please include how many students will use the software on a yearly basis, how the grant will benefit students and if the software will be used in a required course.

Who will serve as the point of contact and what commitments will the school make to train this person?

Please provide any other factors we should consider in evaluating your school for a grant, i.e., financial need, community need, and youth career development opportunities.

Will a press release be generated to acknowledge this grant?

ITEMS BELOW ARE FOR SIEMENS PLM ONLY
